

KONE's climate related disclosures according to the Task Force on Climate-related Financial Disclosures (TCFD)

KONE's climate disclosures are aligned with the CSRD and ESRS requirements. While the TCFD framework has been superseded by the ISSB's IFRS Sustainability Disclosure Standards, KONE has mapped its climate-related disclosures against the TCFD recommendations to support consistency, transparency and comparability. The table below cross-references the location of TCFD-aligned disclosures within KONE's published reports.
